Be Healthy,
Be Fit!

When kids are organized, they can stay focused instead of spending time hunting things down and getting sidetracked.

What does it mean to be organized at the elementary level? For schoolwork, it means having an assignment book and homework folder (many schools supply these) to keep track of homework and projects.

Check your child's assignment book and homework folder every school night so you're familiar with assignments and your child doesn't fall behind. Set up a bin for papers that you need to check or sign. Also, keep a special box or bin for completed and graded projects and toss papers that you don't need to keep.

Talk to your child about keeping his or her school desk orderly so papers that need to come home don't get lost. Teach your child how to use a calendar or personal planner to help stay organized.

It's also helpful to teach your child how to make a to-do list to help prioritize and get things done. It can be as simple as:

+ homework

+ soccer

+ put clothes away

No one is born with great organizational skills — they need to be learned and practiced.
